

AEA Summer Training Program

Fellow Evaluation 2018

Fellow: Riley Acton

Course: ECSP 891 Advanced Research Course

	Number of respondents					Mean score	
	STRONGLY AGREE	AGREE	NEUTRAL	DISAGREE	STRONGLY DISAGREE	Mean score	Mean for all AEASP fellows
...was easily accessible and available for questions	19	5	7	0	0	1.60	1.63
...was able to answer my questions in an understandable manner	18	6	7	0	0	1.64	1.68
...used personal experiences to help get points across	17	5	9	0	0	1.73	1.96
...was concerned with whether I understand the material	17	6	7	0	0	1.66	1.68

Scores based on: Strongly Agree =1, Agree=2, Neutral =3, Disagree=4, Strongly disagree=5

The AEA Summer Program at Michigan State University is a two-month long residential program that prepares talented students from under-represented backgrounds from across the United States for graduate work in economics. Fellows that support the program as either Teaching or Research Fellows are graduate students in economics who are chosen in a nationally competitive process. Their abilities and dedication to the program goals and the individual student-participants are unparalleled and students and faculty universally remark that fellows' contributions exceed by far what is common for even top-rated teaching and research assistants in graduate education.
