Comments:

- Absolutely loved Riley. She turned an otherwise dull subject into a fun and engaging course.
- great class
- Made class interesting and taught the material very well.
- Perfect instructor, best experience in all of my econ classes. Really care about the students and materials are clear and well sorted.
- Perfect!
- Riley was a more effective instructor than some of the tenured professors I've had in the Economics department. Her lectures were very detailed, and her notes extensively covered the material. Any question that was asked was always completely answered. Very approachable and taught in a way that was easy to follow.
- Riley had a great attitude and made the learning experience very enjoyable.
- Riley was amazing, definitely the most engaging economics professor I've had. She taught material well and made it more useful by providing real life examples and applications. I would have preferred if her problem sets were turned in and graded but I was able to do very well in the class by just coming and learning the material. She was an excellent and enthusiastic TA and she didn't lose her enthusiasm at all as the semester went on.
- Riley was awesome! And always willing to help.
